Nang Hsu Mon Pyae

ACADEMIC PROFILE

Educator and researcher with 10+ years of experience in Computer Science, ICT in education, and curriculum development across universities and international schools in Thailand, Myanmar, and ASEAN. Skilled in educational technology, HCI, gamification, AR/VR learning tools, and constructivist methods, with a strong focus on student-centered learning, ICT integration, and research-driven teaching.

ACADEMIC APPOINTMENTS

Mae Fah Luang University, Chiang Rai, Thailand – *Lecturer*

March 2024 - PRESENT

- Deliver lectures in Low-code Development, Testing, Quality Assurance, Project Management,
- Supervise student projects, mentor research skills and supervisor in Co-op education.
- Committee member for scholarships and student activities.
- Serves as a lead of International Relations in the Software Engineering program.

ConceptX International School, Yangon, Burma – *Department Head of Computing & Robotics Department*

June 2021 - February 2024

- Designed Computing & Robotics curricula (Primary) using ADDIE framework.
- Taught IGCSE Computer Science (Edexcel & CIE).
- Developed teacher training programs with a Constructivist approach.
- Collaborated with Thai universities on academic initiatives.
- Oversaw teacher recruitment, training, and evaluations.

Finished Projects

- Primary-3:Computer Science Theories (Teachers' handbook)
- Teachers Training Program: Fundamental of Computing & Robotics Concepts
- ConceptX International School: Parental awareness over digital keepsafings in primary levels

Payap University, Chiang Mai, Thailand — *Lecturer*

May 2020 - April 2021

- Taught undergraduate courses in HCI, IT Fundamentals, OS, Web Development, Information Management, and Computer Architecture.
- Developed and revised courses based on program needs and student performance.
- Supervised student projects and mentored research skills.

Naresuan University, Phitsanulok, Thailand — *Assistant lecturer/Researcher*

August 2014 - May 2018

- Delivered lectures, tutorials, and assessments in undergraduate Computer Science.
- Supervised student research and contributed to departmental projects in educational technology.

Research Projects (Principal Investigator)

- Technology use among Thai schoolchildren; Preferences in Math & English educational games.
- Collaborative vs. individual play in STEM tablet learning.
- Framework for primary teachers using tablets.

Research Projects (Team member)

- *Spinnu* app content development; Authoring tool for schoolteachers' digital content.

Naresuan University Secondary Demonstration School, Phitsanulok, Thailand — *Assistant lecturer/Researcher (Part-time)*

June 2014 - April 2018

- Taught public speaking, English, and presentation skills.
- Developed secondary English curricula (4 skills).
- Applied research-led teaching to enhance academic standards.

OTHER PROFESSIONAL EXPERIENCE (ACADEMIC RELEVANCE)

UNESCO, Yangon, Burma — *Freelance Specialist*

November 2023 - March 2024

- Developed ICT course content, pedagogy, and assessment frameworks for online training modules.

360ed, Yangon, Burma — *Augmented Reality Product Lead*

May 2018 - April 2024

- Led the development of AR-based educational STEAM projects, integrating game-based learning and technology-enhanced pedagogy.

Key Projects

- Baykin (Free from dangers in sexual harassment, sex education and material arts)
- Electric Circuit AR

Intertek Testing Services Singapore Pte Ltd — *IT Administrator*

February 2012 - June 2012

- Administered Laboratory Information Management Systems (LIMS).
- Provided IT support for lab operations and data security.

EDUCATION

Naresuan University (NU) — *Doctor of Philosophy (Information Technology)*

2014 - 2019, Thailand

Nanyang Technological University (NTU) — *Master of Science (Information System)*

2009 - 2011, Singapore

University of Computer Studies Yangon (UCSY) — *Bachelor of Computer Science (Hons:)*

2005 - 2009, Burma

Southeast Asia Ministers of Education Organization (SEAMEO) — *Diploma in English Language Proficiency*

2008 - 2009, Burma

RESEARCH INTERESTS

- Educational Technology & AI integration in teaching
- Curriculum Design for Computing, Robotics & STEM
- Human-Computer Interaction (HCI) in learning
- Educational Game Design, Gamification & AR/VR in education
- Student-centered & constructivist learning
- Cross-cultural & international education programs

PUBLICATIONS

JOURNAL ARTICLES

- The Nature of Technology Consumption among School Children in Lower Northen Thailand. International Journal of Interactive Mobile Technologies (iJIM).

- A Framework for Evaluating Tablet-based Educational Applications for Primary School Levels in Thailand. International Journal of Interactive Mobile Technologies (iJIM).

- Support for Overcoming Pedagogical Issues in Primary School Tablet-Based Classroom Environments. Lecture Notes in Computer Science, vol 11007. Springer.

CONFERENCE PAPERS

- Designing a Gamified Learning Platform to Foster Engagement in Higher Education. The 22nd International Joint Conference on Computer Science and Software Engineering (JCSSE 2025)

- Bridging the Gap Between Theory and Practice: Exploring the Acceptance of Constructivist Learning Approach in AI-Generated Learning Content. 2025 10th International Conference on Business and Industrial Research.

- Usability Heuristics for VR-Based Education: A Case Study of Science Experiment Laboratory Simulator. 2024 8th International Conference on Information Technology (InCIT)

- Analyzing the characteristics of Maths and English tablet-based games for primary school children. MiTiCON 2nd Management and Innovation Technology International Conference.

- The current state and emerging trends of technology usage among young people in Thailand. Twelfth international conference on eLearning for knowledge-based society, At Siam Technology College, Bangkok, Thailand.

- A Survey of Technology Usage by Primary and Secondary Schoolchildren in Thailand. Eeleventh international conference on eLearning for knowledge-based society, At Siam Technology College, Bangkok, Thailand.

COMPETENCIES

Teaching & Curriculum Design

- Curriculum development using ADDIE model
- Constructivist and student-centered teaching
- Teacher training program design and mentorship

Educational Technology & IT

- Integration of ICT in education
- AR/VR and gamified learning applications
- Learning Management Systems (LMS) and course authoring
- LIMS and IT administration

Research & Analytical Skills

- Advanced quantitative and qualitative research methodologies
- Design and evaluation of educational games for learning effectiveness
- Survey design, case study analysis, and assessment of learning outcomes

Professional & Leadership Skills

- Academic collaboration across ASEAN and international universities
- Supervising student projects and research
- Committee leadership: scholarships, student activities, international relations

Languages

- English (Fluent)
- Burmese (Native)
- Thai (Working knowledge)
