SUMMARY

Adaptable Year 4 Software Engineering student at Mae Fah Luang University with strong skills in software development, problem-solving, and data analysis. Experienced in leading and collaborating on full-stack projects with React.js, Node.js, Spring Boot, and databases. Skilled in gathering requirements, translating them into scalable solutions, and delivering user-focused applications. Quick learner with a passion for exploring new technologies such as AI and data-driven tools, eager to contribute technical expertise and adaptability in a team-driven environment.

EXPERIENCE & PROJECTS

AI Powered Real-Time Quiz Game Room App

Personal Project

Full-stack Developer

- Created a multiplayer quiz platform where users can join or host quiz rooms and compete in real-time using socket io.
- Integrated AI-powered question generation using Fast API and Lang Chain, enabling dynamic and context-aware quizzes.
- Developed engaging UI with React, TypeScript, and Framer Motion, supported by a scalable Node.js/MongoDB backend.

Doi Tung E Learning Platform

Academic Project

Full-stack Developer & Team Lead

- Led a team to build a corporate training platform with React.js, Tailwind CSS, Node.js, and MySQL.
- Implemented role-based access control, course management, and reporting features.
- Delivered a responsive UI accessible across desktop and mobile devices.

E-Signature Dashboard

Personal Project

Full-stack Developer

- Built a dashboard for managing public or custom templates and sending digital signature requests via email.
- Implemented multi-user workflows with designated signature positions and real-time signature application using a signature pad.
- Developed a scalable, secure solution with React, TypeScript, Java Spring Boot, and MongoDB.

EDUCATION

Bachelor of Engineering in Software Engineering

Aug 2022 - Present

Mae Fah Luang University

- GPA: 3.77, Relevant Courses: Data Structures, Web Dev, Databases, Software Engineering

SKILLS

Languages	Java, JavaScript, TypeScript, Python
Frontend	React.js, HTML5, CSS3, Tailwind CSS
Backend & Database	Node.js, Express.js, Spring Boot, MySQL, PostgreSQL, MongoDB
AI & Machine Learning	TensorFlow, Pandas, Matplotlib, Seaborn, Lang Chain, LangGraph
Other Tools	GitHub, Cursor, ChatGPT, Claude AI, Copilot, Figma, Postman, Docker
Soft Skills	Strong problem-solving, quick self-learner, team collaboration, adaptability
