SUMMARY

Entry-level developer with a few months of practical experience building basic web pages using HTML, CSS, and JavaScript. Recently started learning React and Node.js. Eager to grow into a full stack developer role.

TECHNICAL SKILLS

- **Frontend:** HTML5, CSS3, JavaScript, React (basic)
- **Backend:** Node.js (basic)
- **Tools:** Git, GitHub

EXPERIENCE

Junior Web Developer – Webline Agency

Apr 2024 – Present

- Built simple static landing pages for client websites using HTML and CSS
- Made small text and style updates to existing web pages based on designer feedback
- Shadowed senior developers on basic bug fixes

PROJECTS

Recipe Sharing App (React, Node.js)

- Followed an online tutorial to build a basic recipe listing app
- Still working on adding a database to the project

EDUCATION

B.S. in Computer Science – University of Illinois at Chicago (2024)

CERTIFICATIONS

freeCodeCamp: Responsive Web Design Certification (2024)
