

SUMMARY

Motivated software engineering student with strong foundations in web development seeking internship opportunities to apply technical and problem-solving skills in a real-world environment. Actively building personal projects using modern frameworks like React.js, Next.js, and Express.js. Skilled in building responsive, SEO-friendly, and accessible web applications tailored to users and growing businesses.

EDUCATION

Bachelor of Engineering Program in Software Engineering | GPA: 3.80

Aug 2022 - Present

School of Applied Digital Technology, Mae Fah Luang University - Chiang Rai, Thailand

Relevant coursework: Software Development Process, Database Systems, Agile Methodologies.

ACHIEVEMENT

Best BMC Award – Software Engineering Hackathon 2024

Awarded for presenting the best Business Model Canvas (BMC) among competing teams in a university-level software engineering hackathon.

PROJECTS

DevFlow - Full-stack AI-powered Q&A Platform

www.devflow.forum

Tech Stack: TypeScript, Next.js, NextAuth, MongoDB, Mongoose, GroqAI, shadcn/ui

Architected a full-stack Q&A platform featuring AI-powered answer generation via Groq integration, advanced search functionality with filtering and sorting, and recommendation system for enhanced user engagement

Achieved 99 performance and 100 SEO Lighthouse scores through MongoDB advanced aggregation pipelines for complex data relationships, delivering fast AI response times and seamless user experience

Prostore - A Full-featured E-commerce Platform

www.theprostore.shop

Tech: TypeScript, Next.js, NextAuth, PostgreSQL, Stripe, PayPal, Prisma, shadcn/ui

Engineered full-featured e-commerce platform with advanced filtering and sorting through optimized PostgreSQL queries, real-time order tracking, and secure Stripe/PayPal checkout flows

Designed scalable admin dashboard with role-based access control for managing products, and orders while processing 100+ test transactions through production-grade webhooks and payment integration

The Wild Oasis - Hotel Management SaaS Platform

www.thewildoasis.co

Tech Stack: Next.js, NextAuth, Supabase, Tailwind CSS

Developed scalable hotel management SaaS platform with real-time booking, guest management, user authentication, and admin dashboard capable of managing multiple properties

Optimized performance improving page load times by 40% through strategic use of SSR, SSG, and ISR rendering patterns for better SEO while enhancing user experience with smooth animations and responsive design

SKILLS

Frontend: JavaScript, TypeScript, Bootstrap, Sass/SCSS, Tailwind CSS, shadcn/ui, MUI, Vue.js, React.js, Next.js

Backend: Node.js, Express.js, Firebase, Supabase

Databases: MySQL, MongoDB, PostgreSQL, Prisma, Mongoose, Redis

Tools & Others: Pina, Redux, RTK Query, Tanstack Query, Zustand, React Router, Framer Motion, Cursor, VS Code

Languages: Fluent in English, Basic in Thai (currently learning), Native Burmese

Soft Skills: Critical Thinking, Creative Thinking, Fast Learner, Problem-solving, Adaptable to new technologies, Communication, Attention to Detail, Time Management, Team Collaboration, Growth Mindset
